

## **“What’s on Your Mind?” November 2006**

**“I wish there’d be a Pizza Place inside the library. ☺**

**“2 things needed: 1) Pizza Hut Kiosk inside the library ☺ 2) Crema Harrison.”**

Pizza is not a library-friendly food. We do have a vending machine in the student lounge with library-appropriate snacks.

**“I want to bring in food to rooms in the Link.”**

No food is allowed in the library other than inside the basement student lounge.

**“Hot Tea or coffee vending machine in student lounge at night when library is open 24 hours the temperature becomes uncomfortably cold. There should be fixed ambient temperature. Microwave and refrigerator needs to be in student lounge.”**

Many fires on campus are begun by microwaves left unattended with longer than safe heat time. We don’t want to run the risk of endangering our users or our resources.

**Put a change machine for \$5 and \$10 & 20 bills in the reference room! I hate having to go at the circulation desk for change.”**

There is a change machine in the reference area that gives:

16 quarters + 10 dimes for a \$5.00 bill

16 quarters + 10 dimes + a \$5.00 bill for a \$10.00 bill

16 quarters + 10 dimes + three \$5.00 bills for a \$20.00 bill

Unfortunately there is no change machine in the library that gives change in single dollar bills.

**“Keep the Link open during 24/7. The science library and east stack doors can be locked and we’ll still have access to the study rooms.”**

This issue has been raised by the CUL Student Advisory Council, and we are taking it under advisement...stay tuned.

**“Pipe in music in the 1<sup>st</sup> floor like classical music like they do at the bookstores. I realize people have iPods but it would make the 1<sup>st</sup> floor environment like the computer area more cozy and library-like.”**

Based upon complaints about noise and the need for earplugs we received in May of this year, musak would not be a unanimous improvement. Although a little Aerosmith might keep students awake at 3:00 am in the morning.
