PRESS RELEASE

Coppell Photographer Earns International Recognition

Local Photographer's Work Selected for International Exhibition of Professional Photography

Coppell, August 20, 2008: Four photographic images created by Rob Hull of GreatPhotography in Coppell have recently been accepted into the 117th International Exhibition of Professional Photography. Hull's work will be on display at the Phoenix Convention Center, January 11 – 13, 2009 in Phoenix, Arizona. This exhibition is held in conjunction with Imaging USA, an annual convention of over 8,600 professional photographers and several photographic associations.

Photographers from North America compete in local and state competitions to determine what images are then entered into the International Print Competition. Over 4,500 entries were submitted, from which a panel of more than 40 eminent photographers from across the United States selected the images that comprise the 2008 International Exhibition. Professional photographers are able to enter up to four prints into this competition and Hull has achieved a rare accomplishment having three images selected for the General Collection and one selected for the prestigious Loan Collection.

In recognition of this achievement Hull has earned a Silver level Photographer of the Year Award placing him with the best of the best. His Loan Collection image, titled *Heaven and Earth*, will be published in the **Professional Photographers of America Loan Collection** book. You can see this image along with his other winning images on his website at www.GreatPhotography.com.

Hull is a popular photographer for high school seniors and also teaches a variety of photography classes for the SMU Continuing and Professional Education at SMU Plano. Photo enthusiasts can also take advantage of Hull's photography workshops in some of North America's most photogenic areas; in his next workshop Hull will be taking a group to Banff National Park in the Canadian Rockies.

Anyone interested in portraiture, classes and workshops can visit Hull's website at www.GreatPhotography.com.
