# Using Your Classroom Equipment

*If the touch panel display is off, tap the screen to turn it on.*

1. Select the desired **Source**
  - a. If “input not detected” is displayed, verify the lectern computer is powered on or that the HDMI cable is plugged securely into your laptop/device.
2. Select the **Display** you wish to display the source on.
3. If you selected a laptop as your source, you may need to change settings to duplicate your screen. This can be done by pressing **Win+P** on a PC, or by changing your Mac’s display settings in System Preferences.
4. **Volume**
  - a. Tap the Volume up down buttons on the right side of the touch panel
  - b. Adjust the computer volume as needed
  - c. Mute using the audio icons
5. **Blank Screen**
  - a. Tap the **Blank Screen Button** below the projector
  - b. Tap the **Blank Screen Button** again to restore the image
6. **Wireless Screen Sharing**
  - a. To connect your device to the projection system wirelessly, select the **Screen Share** source and select the desired destination. Then follow the on-screen instructions to connect to the system.
7. **Electronic Whiteboard**
  - a. You can use either the Qomo (monitor on the podium) or the Clevertouch Interactive display for an electronic whiteboard solution.
