

Navigate the education system with confidence: Our education experts can help

Personalized Education Support

Ensuring you're on the right track in the complex education system is challenging—whether you're moving schools or your child needs more support. Lean on our team of educators, school administrators and counselors to guide you through it.

- **IEP and 504 support:** Prepare for IEP and 504 processes with an Education Coach who will review documentation, attend meetings and clarify jargon
- **Don't miss enrollment:** Get personalized information on registration, enrollment and necessary school-year preparations
- **Tackle college prep:** Get support through the college admissions process including personalized details for applications, disability accommodations, financial aid and navigating the transition to college
- **Explore trade schools and beyond:** Explore personalized options for alternative paths to traditional education, including enrolling in the military, completing a GED or applying to trade schools
- **Ensure well-being:** Navigate your student's well-being with dedicated support through behavioral challenges, peer relationships and extracurricular activity options
