

Virtual counseling, powered by BetterHelp

Mental health affects every aspect of our lives. In the workplace, where stress and deadlines can take a toll, it's especially important to pay attention to your wellbeing.

Virtual counseling is available for individuals and teens (with parental consent and in accordance with applicable law and clinical appropriateness). You and your household members are eligible for up to 5 pre-paid counseling sessions per issue, per year. If you've use all the allotted counseling sessions to resolve an issue, you can request more sessions for a new issue by either calling your program or using the Live Chat feature on your member website and a Customer Experience Associate can assist you.

Please note: Virtual counseling is used for short-term issues and focuses on current situations and building coping skills. The counselor does not diagnose specific conditions and cannot prescribe medication.

You can choose between four modalities when connecting with your counselor: text, real-time chat, phone or live video sessions. You can also toggle between modalities while in counseling. For example, you can choose to chat with a counselor online one week and the following week schedule a video session. Register online or by phone to get started.
