

ADDENDUM

The following information is not included in the print version of the *2010–2011 SMU General Information Undergraduate Catalog* but is valid for the 2010–2011 academic year.

The following is new information for the Policies and Procedures, Grades section on page 47.

Grade Options for Courses Taken on SMU Abroad Programs

Effective fall 2010, courses taken on SMU Abroad fall and spring term programs may not be taken on a no-credit or pass/fail basis. The only exception to this policy is for courses designated by SMU's academic departments with no credit or pass/fail as their only grading basis option.

For courses taken on SMU Abroad summer and J Term programs, students may not petition for a grade of NC (No Credit), but may petition for courses to be graded on a pass/fail basis. Students must petition approval for the pass/fail option from the program director and the faculty member teaching the course. The deadline to complete the Pass/Fail Option Declaration Form to petition for a course taken on an SMU Abroad summer or J Term program is prior to the point of registration into the course. Forms are available in the academic dean's office.
