**ANTH 2415 HUMAN EVOLUTION: BIOLOGICAL AND SOCIAL BEGINNINGS OF HUMANKIND.** Humans are the products of their evolutionary past. Employing evidence from the human fossil record, the archaeological record, and the genetics of both living and extinct humans, this class explores what is known, what is not known, and what can come to be known about human history in deep time. Beginning with developing an understanding of how evolution operates, students examine the evolution of the primates, paying particular attention to our own group – the hominins.
