COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

FRANCIS S. COLLINS

Francis S. Collins, M.D., Ph.D., has been director of the National Institutes of Health since 2009, overseeing the work of the largest institutional supporter of biomedical research in the world. But he may be best known for leading the Human Genome Project, a 13-year international effort to map and sequence the 3 billion letters in human DNA.

As an innovative evolutionary geneticist and a devout Christian, Collins also has gained fame for his writings on the integration of logic and belief.

As NIH director, he has helped launch major research initiatives to advance the use of precision medicine for more tailored healthcare, to increase our understanding of the neural networks of the brain to improve treatments for brain diseases, and to identify areas of cancer research that are most ripe for acceleration to improve cancer prevention and treatment. His personal research efforts led to the isolation of the genes responsible for cystic fibrosis,

neurofibromatosis, Huntington's disease and Hutchinson-Gilford progeria syndrome.

Collins received his Ph.D. degree in physical chemistry from Yale University, and his M.D. degree from the University of North Carolina-Chapel Hill. As an elected member of the National Academy of Medicine and the National Academy of Sciences, Collins was awarded the Presidential Medal of Freedom in November 2007 from President George W. Bush and the National Medal of Science in 2009.

For his dramatic successes as a gene hunter, his support for biomedical research on a vast scale and his leadership of one of the most significant scientific undertakings in modern history – the Human Genome Project – Collins will receive the Doctor of Science degree, *honoris causa*, from SMU.

HONORARY DEGREE RECIPIENTS

FRANCIS HALZEN

Francis Halzen's contributions to the study of particle astrophysics might be compared to the influence of astronomer Galileo Galilei's 17th-century perfection of the telescope: Both enabled unprecedented closer observation of the universe. Halzen's vision, initiative and leadership have led to the development and construction of the IceCube South Pole Neutrino Observatory, where he is principle investigator, and where the first ultra-high-energy neutrinos were detected in 2013.

Halzen's work in particle physics detection has taken the study of neutrinos beyond the Milky Way galaxy and into deep space, leading to new understanding of astronomical phenomena including black holes, supernovas and galaxy formation.

Halzen is the Hilldale and Gregory Breit Professor of Physics at the University of Wisconsin-Madison and the director of the Institute for Particle Physics Research. He received the 2015 Giuseppe and Vanna Cocconi Prize from the European Physical Society, the 2015 Balzan Prize and the 2014 Smithsonian American Ingenuity Award. Halzen received master's and Ph.D. degrees, as well as an agrégé de l'enseignement supérieur (a qualification for teaching in higher education) from the University of Louvain in Belgium.

For his pioneering efforts toward construction of the IceCube observatory and his extraordinary role in opening a new observational window on the universe, Southern Methodist University is honored to confer the degree Doctor of Science, *honoris causa*.

NANCY A. NASHER

Nancy A. Nasher, a business leader, lawyer and philanthropist, has dedicated her professional and personal life to the betterment of Dallas. She holds degrees from Princeton University and Duke University School of Law. As president and co-owner of NorthPark Center, a premier shopping destination noted for excellence in retail and architectural design, Ms. Nasher has seamlessly integrated art into public spaces. Her vision of public engagement with the arts as embodied in NorthPark Center, the Nasher Sculpture Center and her contributions to local arts organizations has been transformative for Dallas, and continues through her deep support and advocacy for all facets of the Dallas arts community. She serves on the executive boards of The Dallas Opera, the Dallas Symphony Orchestra and the Nasher Sculpture Center, and is the founder's chair of the Business Council for the Arts.

Additional board leadership positions include the Dallas Museum of Art, the AT&T Performing Arts Center, the Meadows School of the Arts, the National Center for Arts Research, the Dallas Mayor's Business/Arts Initiative, the University of North Texas School of Visual Arts, the Princeton University Art Museum Board of Advisors and the Duke University Board of Trustees. Ms. Nasher is chair of the Nasher Museum of Art at Duke University Board of Visitors.

Her numerous honors include the 2017 TACA Silver Cup Award for her dedication to arts support. In 2015, Socrates Sculpture Park in New York honored Ms. Nasher for advancing the practice of sculpture. For her dedication to public engagement with the arts, Southern Methodist University is honored to confer the degree Doctor of Arts, *honoris causa*.

ED PARISH SANDERS

Ed Parish Sanders, a 1962 alumnus of SMU's Perkins School of Theology, is an internationally respected New Testament scholar responsible for major contributions to studies of Jesus and the Apostle Paul and their relationships to the Judaism of their day. He is credited with prompting the re-evaluation of prejudicial views of Judaism that often characterized earlier biblical scholarship, resulting in improved Jewish-Christian relations.

Sanders is the author of 14 books and numerous monographs that have been translated into 11 languages. His monograph, *Paul and Palestinian Judaism* (1977), received a National Religious Book Award, and his *Jesus and Judaism* (1985) won the prestigious Grawemeyer Award. He received a Bachelor of Arts degree from Texas Wesleyan University, a Bachelor of Divinity from SMU Perkins School of Theology and a Ph.D. from Union Theological Seminary.

Sanders held an endowed chair in religion at Duke University until he retired in 2005. He also held faculty positions at McMaster University in Hamilton, Ontario, and at the University of Oxford. He is a Fellow of the British Academy and the American Academy of Arts and Sciences. Sanders has received honorary doctorates from the University of Oxford and the University of Helsinki.

For his contributions to biblical scholarship, the understanding of Jewish and Christian origins, and Jewish-Christian relations, Southern Methodist University is honored to confer the degree Doctor of Humane Letters, *honoris causa*.

SOUTHERN METHODIST UNIVERSITY

In 1911, a Methodist education commission made a commitment to establish a major Methodist university in Texas. More than 600 acres of open prairie and \$300,000 pledged by a group of Dallas citizens secured the university for Dallas, and it was chartered as Southern Methodist University. In appreciation of the city's support, the first building to be constructed on the campus was named Dallas Hall. It remains the centerpiece and symbol of SMU. When the University opened in 1915, it consisted of two buildings, 706 students, a 35-member faculty and total assets of \$636,540. The original schools of SMU were the College of Arts and Sciences, the School of Theology and the School of Music.

Today SMU offers more than 120 undergraduate majors, master's

degrees in more than 130 areas, Ph.D. degrees in 34 fields and more than 49 certificate programs. Enrollment for the spring 2017 term was 11,398, including 6,221 undergraduate students and 5,177 graduate students. SMU students come from 49 states, American Samoa, the District of Columbia, Puerto Rico, the Virgin Islands and 94 countries. About 78 percent of first-year students received some form of financial assistance for spring 2016.

In addition to preparing students for graduate and professional schools, or more directly for their life's work, the University strives to enhance their social, moral, intellectual and religious development so that they may lead worthy lives as individuals and citizens of the nation and of the world.

ACADEMIC PROCESSION, REGALIA TRADITION AND SMU REGALIA

The academic procession and the regalia worn by the faculty and officers of the University symbolically represent the continuing link between the modern American university and the founding of the great medieval universities in Europe – chief among them Bologna, Paris and Oxford. As those institutions were derived from the Catholic Church, the universities adopted many of the ceremonial trappings of the church in their official public functions.

The caps and gowns worn in the procession vary from place to place. There are variations in design to indicate the degrees held by the wearers, and many universities in America have introduced colorful gowns and other distinguishing details (in place of the customary clerical black from which all originated). The caps, too, vary according to the customs of the university from which the wearer received a degree. While most American universities adopted the “mortarboard” style of Oxford, others have chosen styles based on other European institutions. The color of the tassel worn with the cap may be black for any degree, or the color may be that of the faculty of the major field of learning (e.g., Arts, Engineering, Law). Persons holding doctoral degrees and governing officials of institutions are entitled to wear tassels of gold metallic thread.

Within the great varieties of styles and colors in gowns and caps, there has been one universally accepted code for the hood worn trailing down the wearer's back. Originally, it was like the hood on the habit worn by monks and very useful for protection against the weather and even for begging for

alms. Nowadays, the hood through length and color shows the degree and the specialization of the wearer, and the university that granted the degree.

Candidates for degrees at SMU are robed in custom regalia, designed to incorporate SMU's colors and symbols.

The doctoral gown in dark blue includes velvet chevrons on each of the bell sleeves. The front velvet panels are embroidered in gold thread with the SMU seal, and gold braid outlines the chevrons and panels. An eight-sided, crimson red velvet tam with a gold silk tassel completes the regalia.

The master's gown, also in dark blue, has a front yolk outlined in red braid, and the SMU seal is embroidered in red on the left side. Gowns have a long sleeve through a slit at the wrist. A mortarboard with a colored tassel representing the discipline in which the degree is earned also is worn.

Doctoral and master's candidates wear hoods that are 3½ feet long and 4 feet long, respectively. SMU's hood lining is blue with red chevron.

The bachelor's gowns' distinguishing characteristics are the long pointed sleeves and full front pleats. A red silk Stole of Gratitude embroidered in blue with the SMU seal is worn across the shoulders. It is tradition for graduates to present their stoles to individuals who have made a positive impact in their lives. Bachelor's gowns are worn with a tassel and mortarboard.

Through these colorful ceremonies, SMU symbolically displays the continuity of its educational purposes with the origins of organized learning in the Western world.

THE HOWARD LANTERN

The Howard Lantern is dedicated to Professor Lorn Lambier Howard, chief marshal *emeritus* of SMU from 1978–1987. Crafted out of steel, aluminum and water glass, the lantern depicts the Rotunda in Dallas Hall. Engraved around the base is the University’s motto, *Veritas Liberabit Vos*, which means “The truth will make you free.”

Around the top band are the words to “Varsity,” SMU’s *alma mater*. The lantern serves as a reminder of the important traditions that make up our University life and the light of learning and intellectual curiosity that shines within the students, faculty and staff at SMU.

PRESIDENTIAL COLLAR AND MEDALLION

Chains of office, also known as collars, were used as badges of office in the Middle Ages. Today they are custom-designed metal necklaces worn by the president during academic ceremonies as part of his or her regalia.

The chain of office designed for the 10th president of SMU, R. Gerald Turner, is made of bronze, a strong and durable metal. The medallion of the necklace is dominated by the University seal

design, just as the seal is the centerpiece in the floor of the Rotunda in Dallas Hall, SMU’s historic first building.

The bail, joining the medallion and the chain, represents the institution’s bond between the faculty and the student body. Equally, the 32-inch chain, a work of art whose two ends are clasped together, represents the joining of the desire to teach and the eagerness to learn demonstrated by SMU’s faculty and students.

THE UNIVERSITY MACE

Staffs that call groups to order are as old as civilization itself. Today’s ceremonial maces descend particularly from medieval armor-piercing clubs topped by bludgeoning balls. These fierce weapons swiftly acquired symbolic meaning. By the 14th century, a mace, carried at the front of formal processions, required bystanders to note the authority and integrity of the event. In the 16th century, this formidable weapon lost its battle utility but took a symbolic turn: the spiked head evolved into a decorative orb. The European tradition by which universities presented maces on solemn occasions to signify their independence and protective power was adopted by their successors worldwide. The mace-bearer, who is the

president of the Faculty Senate, leads formal ceremonies carrying this visible reminder of the University’s history and status.

The 22-pound mace currently in use at SMU is linked to the inauguration of President Willis M. Tate (1954–1972 and 1974–75) and is known as the Tate Mace. The 57-inch staff is topped by a 10½-inch orb that represents not only the University’s worldly authority but also echoes its distinctive neoclassical style. The orb is impressed with the seal of the University and is encircled with SMU’s motto, *Veritas Liberabit Vos* (“The truth will make you free”). Surmounting the orb is a cross painted vividly in SMU red, a reminder of SMU’s religious heritage.

SMU GUILD OF MARSHALS

Decorum, tradition, the processions of candidates, faculty and the platform party and the ceremony are managed by the Guild of Marshals. The legacy of the Guild of Marshals goes back to medieval courts in Europe where trusted members were appointed as marshals of the court. SMU’s marshals can be identified by their bright red gowns with black chevrons. The Chief Marshal

is a faculty member appointed by the provost, who is the presiding officer at academic ceremonies. The Chief Marshal selects faculty members from each of the schools to serve in the Guild. Other positions in the Guild are Chief Marshal *emeritus*, Platform Marshal, Procession Marshal, Faculty Marshal, 50th Class Reunion Marshal and Marshal Lector.

IN MEMORIAM

MARSHAL PROFESSOR DENNIS SIMON
SEPTEMBER 23, 1951 – FEBRUARY 12, 2017

A member of the Political Science faculty since 1986, he served in the Guild of Marshals for 22 years and participated in 46 academic ceremonies. His commitment to academic excellence and civil rights, and his dedicated service to the Guild, is deeply missed.

SMU is the nationally ranked global research university in the dynamic city of Dallas. SMU’s alumni, faculty and 11,000 students in seven degree-granting schools demonstrate an entrepreneurial spirit as they lead change in their professions, communities and the world.
